Implementation and Managed Services for Semarchy

30+
DATA ENGINEERS

Semarchy
xDM AND xDI SOLUTIONS

Choose the powerful combination of APGAR and Semarchy for your data management needs. APGAR and Semarchy are recognized leaders in data and analytics by Gartner. As strong partners, APGAR has 30+ data engineers trained on Semarchy's xDM and xDI solutions and brings experience with complex, multi-domain MDM projects to accelerate delivery using preconfigured solutions.

APGAR leverages Semarchy's robust capabilities while following best practices and is committed to supporting clients throughout their data journey with end-to-end services from advisory to managed services. With expertise in key areas like data architecture, integration, and MDM, plus a global delivery model, APGAR and Semarchy deliver proven results.

APGAR is committed to drive high-quality implementation and outcomes.

MDM Implementation.

FOUR STREAMS TO ENSURE SOLUTION FIT AND USER ADOPTION

01

GENERAL DESIGN & SCOPING

Finalize the general design of the xDM solution.
Validate a solution design and architecture that meets the initial scope and timeline.

02

PLATFORM SETUP AND DATA DOMAIN CONFIGURATION

Setup the Semarchy platform & configure the core capabilities including the data model, roles, data quality rules, workflows and data integration with source and target systems.

03

MIGRATE DATA

Support on the data migration strategy. Provide templates. Implement mass update processes.

04

CHANGE MANAGEMENT

Provide user guide & administration guide, train the trainer sessions, validate the solution, and review future enhancements

To drive rapid results and build momentum, we secure a first implementation in 12-16 weeks on a controlled scope.

Managed Services.

To reduce operating costs, close capability gaps and support strategic advantage, while making xDM feel like a natively SAAS experience.

We can provide a fully managed services offering included but not limited to:
- Hosting on **all major cloud providers**
- Infrastructure management and monitoring with 24x7 support
- Backup, OS and network management and support
- Semarchy application support
- Users and Permissions
- Upgrade Versions
- Customized Patching

With resources available in both the United States and Europe, we pass the savings to our clients.

Apgar Accelerators.
